

Electron-coupling to waveguide: EELS

$E_e = 200 \text{ keV}$

BEM2D: virtual geometry (blue)

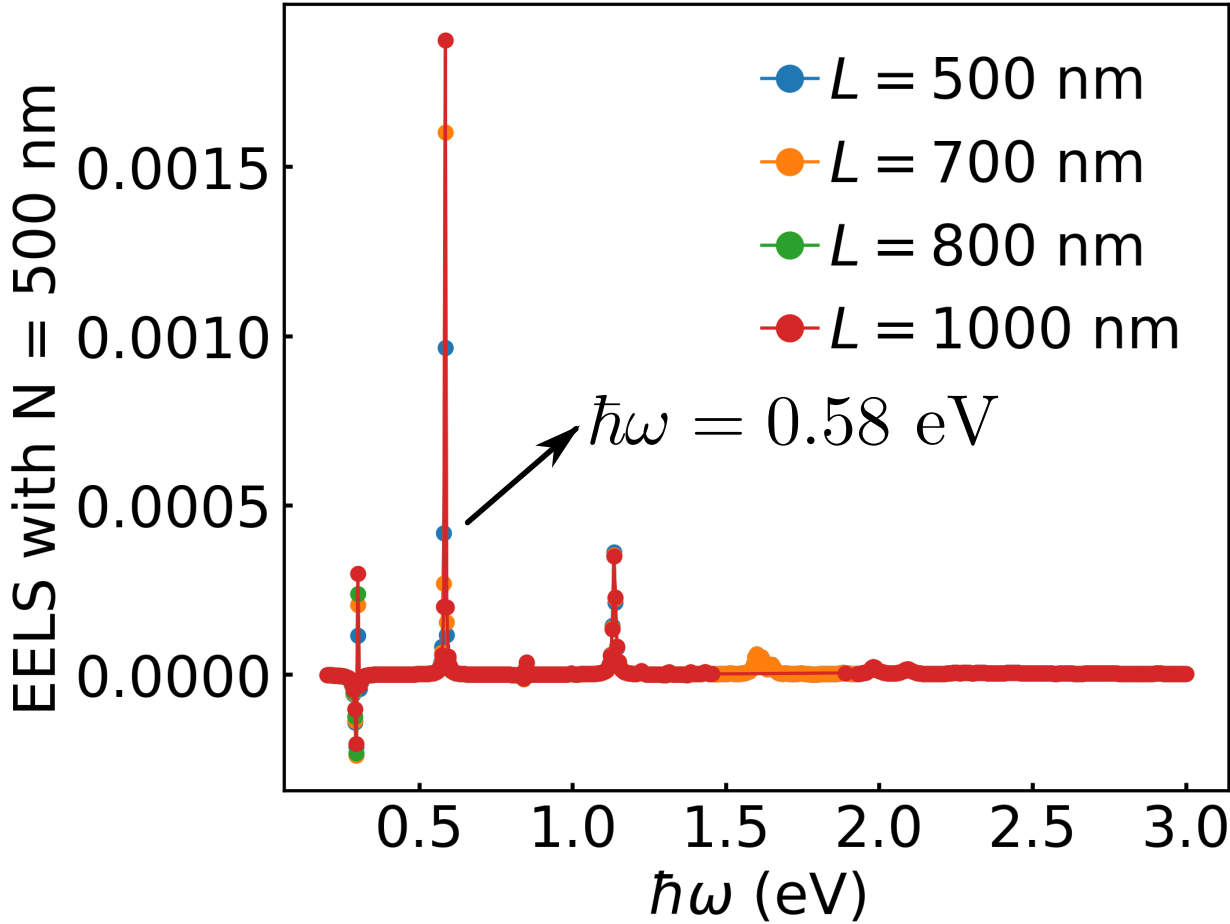

c code: potential

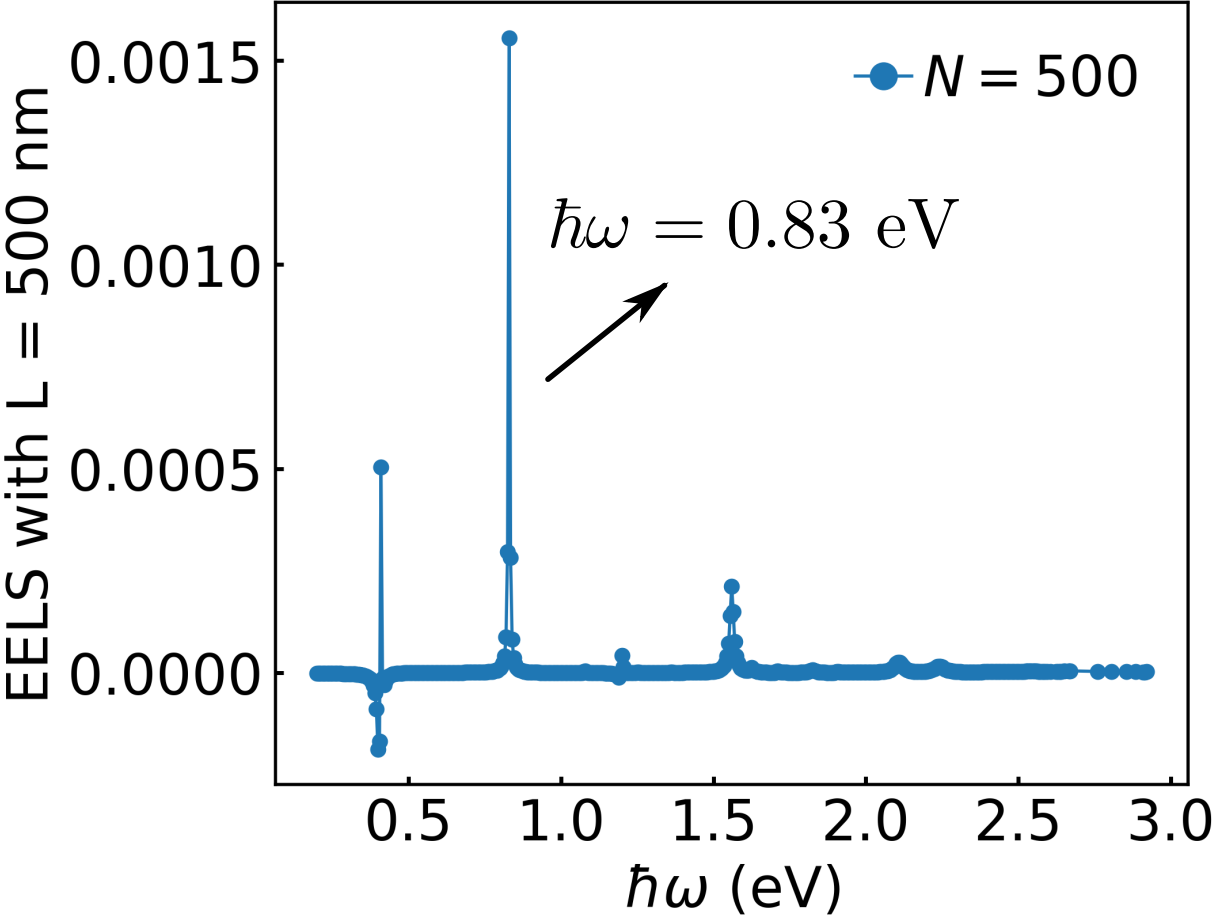

Running EELS for different width and height:

$W = 500 \text{ nm}$ $h = 300 \text{ nm}$

$W = 400 \text{ nm}$ $h = 200 \text{ nm}$

Running EELS in bem2D
for this case to obtain
preliminary results
